1. **Aim of the project:** The aim of this project is to design a visually appealing and appropriate front and back cover for a fictional book titled *Ten ways to have fun*. This book falls under the fantasy genre, focusing on themes of memory, identity, and the intersection of reality and the mystical

2. **Task to be done:** Create a compelling front cover that captures the title of the book and attracts potential readers.

3. **Steps followed in making the project:**

   Set Up Your Document:

   ❖ Open Adobe Photoshop.
   ❖ Create a new document (File > New).
   ❖ Set the dimensions for your book cover (e.g., 6 x 9 inches) and ensure the resolution is set to 300 DPI for print quality.

Choose Your Background:

❖ Use the Paint Bucket Tool (G) or the Gradient Tool (G) to fill the background layer with a vibrant color or gradient that conveys fun (e.g., bright yellow or a colorful gradient).

❖ Alternatively, you can add a texture (File > Place Embedded) for added depth.

4. ☐ Add Images or Graphics:

❖ Search for fun-themed images or illustrations online (ensure they're royalty-free).

❖ Drag and drop these images into your Photoshop document. Use the Free Transform Tool (Ctrl + T or Command + T on Mac) to resize and position them around the cover.

❖ You can also use custom shapes (Shape Tool) to add elements like balloons, stars, or confetti.

5. ☐ Create a Title:

❖ Select the Text Tool (T) and click on the canvas where you want to place the title.

❖ Type *Ten Ways to Have Fun*.

❖ Choose a playful font from the Character panel (Window > Character). Consider using a bold, whimsical font for a lively feel. You can find free fonts on websites like Google Fonts or DaFont.

6. ☐ Style the Title:

❖ Adjust the font size to make it prominent. Center it on the cover.

❖ Add effects to the text (Layer > Layer Style):

❖ Drop Shadow: Create depth.

❖ Stroke: Add an outline to make it stand out.

❖ Gradient Overlay: Use a fun gradient to fill the text.

7. ☐ Add a Subtitle or Author Name (Optional):

❖ Use the Text Tool (T) again to add a subtitle or your name at the bottom of the cover.

❖ Use a smaller font size and a complementary font style.

8. ☐ Incorporate Decorative Elements:

❖ Add smaller graphics or illustrations around the title to enhance the fun theme. Use the Brush Tool (B) for freehand elements or import additional images.

❖ You can also create shapes (Shape Tool) for accents or borders.

9. ☐ Add Finishing Touches:
